

PALS Precourse Self-Assessment and Precourse Work

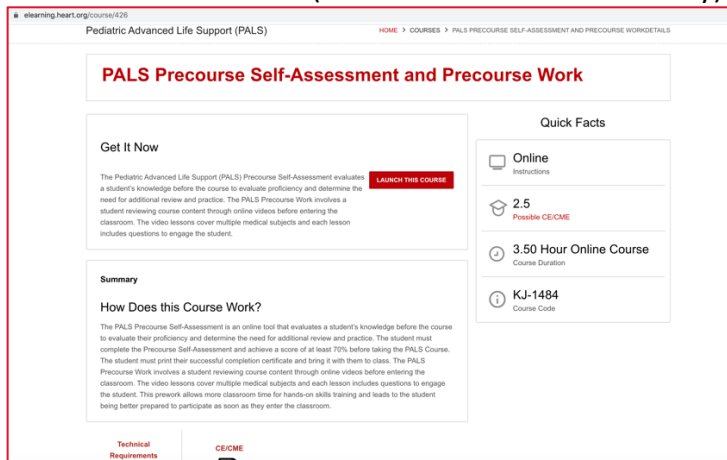

The **PALS Precourse Self-Assessment** is an online tool that evaluates a student's knowledge before the course to evaluate their proficiency and determine the need for additional review and practice. The student must complete the Precourse Self-Assessment and achieve a score of at least 70% before taking the PALS Course. The student must print their successful completion certificate and bring it with them to class.

The **PALS Precourse Work** involves a student reviewing course content through online videos before entering the classroom. The video lessons cover multiple medical subjects and each lesson includes questions to engage the student. This prework allows more classroom time for hands-on skills training and leads to the student being better prepared to participate as soon as they enter the classroom.

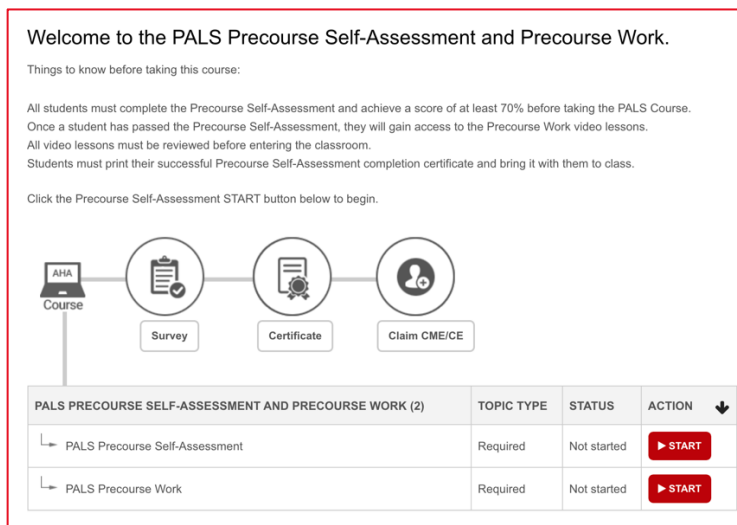

You must take both of those prior to coming to coming in.

This will take you 3.5 hours to complete

1. Go to <https://elearning.heart.org/course/426>
Click on Launch Course (create an account if necessary)

2. Take both Courses and Print Certificates

Welcome to the PALS Precourse Self-Assessment and Precourse Work.

Things to know before taking this course:

All students must complete the Precourse Self-Assessment and achieve a score of at least 70% before taking the PALS Course. Once a student has passed the Precourse Self-Assessment, they will gain access to the Precourse Work video lessons. All video lessons must be reviewed before entering the classroom. Students must print their successful Precourse Self-Assessment completion certificate and bring it with them to class.
